

BlueNotes

An atmospheric evening with musical "crown jewels" that get under your skin behind BlueNotes are the singer and Lyric Writer Heike Nürnberg and Keyboarder, and singer Oliver Klammt, who has been working as a musician, producer and sound engineer with musicians for more than 35 years in Germany and the USA for the most different projects among others:

Purpendicular (with Ian Paice / drummer of Deep Purple and Tony Carey), Kinderzimmer-Productions, Patrick Wieland (Weeland, Voice of Germany), Timothy Breese, "The Stars", and Katie Melua and much more

BlueNotes are not just two fulminant voices plus a piano, but a complete band. Klammt himself has recorded all the instruments himself, calls up the sounds, which change in fractions of a second depending on the backing and put on Klammts Keyboard, together with the programmed light show from the computer and plays this live.

An elaborate production. The BlueNotes concert is about a year and a half in preparation at Klammt's studio.

The rule is: small cast but a huge sound. Listening pleasure guaranteed!
